

# CO<sub>2</sub> Detector

in2020

We only have one earth

Sophie Chen

## HOW:

- 1.It will detect the cars which discharge CO<sub>2</sub> up to the standard on the street.
- 2.It will follow them and attach to them.
- 3.Sending warning signal to the drivers and also to the government about those car numbers and conditions.
- 4.The drivers must improve their car conditions in one month. Otherwise, they will be fined heavily and restrict to drive their cars.
