

It is densely populated in Taiwan, so information passes fast

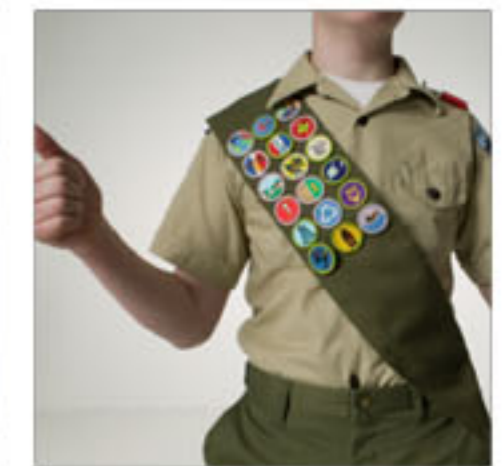

This product is like a badge, it can be every mode that people wear on. it's can be transmission by computer or mobile phone. and it also can transmission to each other.

Maybe in watch

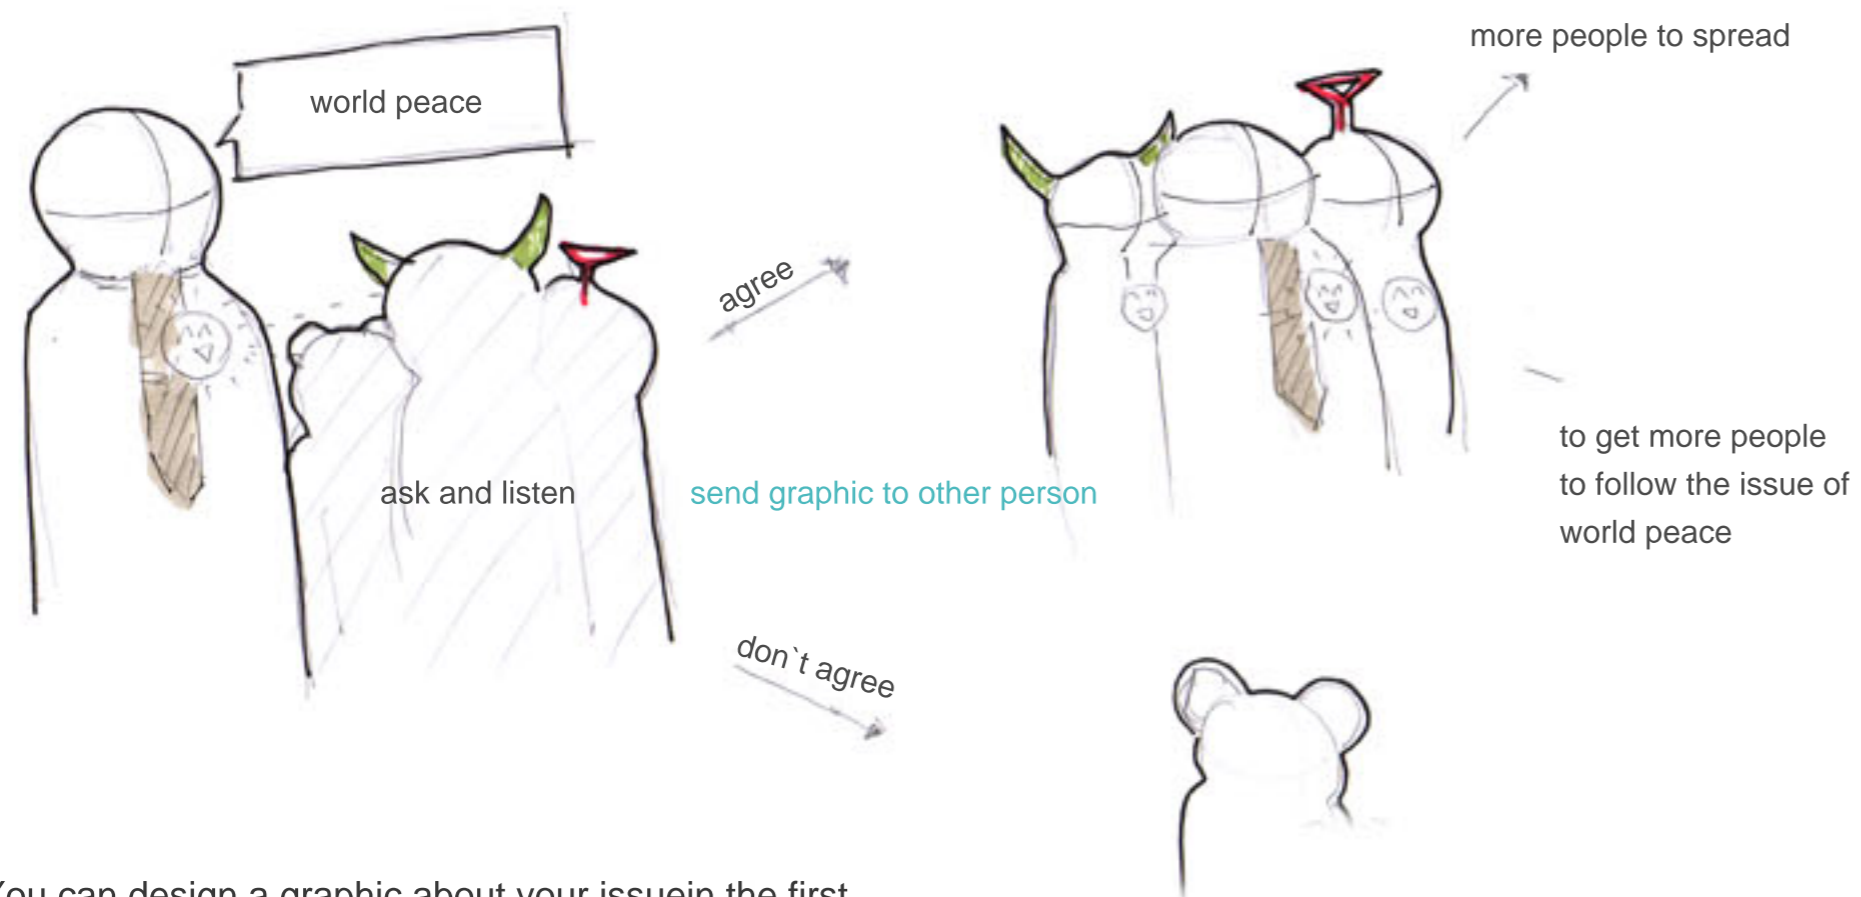

Maybe in bag

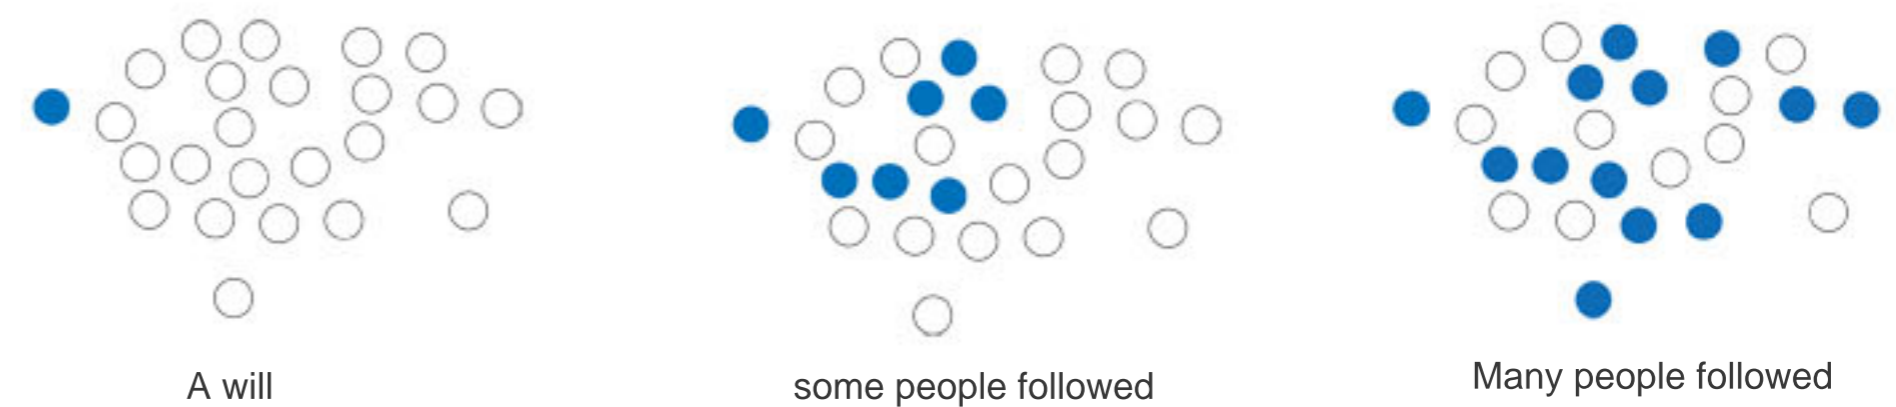

Maybe in badge

Scenario A

You can design a graphic about your issue in the first.
 Some people will be curious and ask you what the graphic means.
 Maybe some people agree with your issue, you can send the graphic to their device.
 and maybe some people look at his graphic,
 so the issue is started.
 maybe spread to a person who has ability.

Scenario B

maybe in other demand
