

Digital Boarding Card

Do you have the experience of taking plane?

Check in counter

4 functions:

It can tell you the situation of flight and remind you how many time it takes between you and the gate.

It can tell you whether the baggage arrives at the cabin.

You shop in duty free stores, you only need to connect the card with shops and when you take on the airplane, you will pay money and take the goods.

In the emergency, you can press the urgent button and the service will come to you immediately and try to help you.

Boarding gate

when you pass through the boarding gate, the stewardess will take back the card.

3 levels:

-  Economical: It can repeat to use
-  Ecological: Does not waste the paper
-  Social: It can transform the language channel to English, German, Chinese, Japanese and French etc., it can use widely.

I hope you'll have a nice trip.  *Sonia*
